Play CLE

Field Trip Schedule/Cost SY 2023-2024

It is our intention for students to enjoy three (3) age-appropriate field trips each school year. This is dependent on availability, bus transportation and weather conditions.

Fees/Payments

Funds are only collected once the field trip is booked. Credits are available to those who cannot attend the field trip. Monies will be put towards the next field trip. If preferred, refunds are also offered for those students who cannot attend. Please contact the main office with any questions.

Curriculum/Field Trip Correlation

It is widely accepted there is a correlation between field trips and academic success. Field trips expose students to new experiences. When combined with a quality curriculum, the benefits are immeasurable. We strive to complement our curriculum with appropriate field trips. This broadens the students' learning experience and provides a better understanding of the material or concept.
